

Soon it will be Spring!

You are invited to a series of three public presentations on

Getting the Water into the Land Again

Stormwater solutions at every scale – plus benefits for our wallets and communities

What on Earth is Green Infrastructure?

What is it, why is it helpful, and how do communities plan for it? Explore best practices and local case studies that help us prepare for climate change and safely manage extreme precipitation

March 15, 7:30-8:30 pm

Hudson Conservation Commission, Town Hall, 78 Main St., Hudson

Building a Rain Garden 101

What, why, and how of rain gardens for DPWs, businesses, and homeowners

Wed. April 25, 6:30-8 pm

Avidia Bank Community Room, 17 Pope St., Hudson

Landscaping with Native Plants for the Birds, Bees, and Water

Why native plants? Which to use? After a brief presentation, join us on a tour of Broadmoor's native plants and the benefits they offer for water resource management and pollinators

Tues., May 8, 6-7:30 pm

Mass Audubon's Broadmoor Wildlife Sanctuary, 280 Eliot Street, Natick

This public education is supported by the Foundation for MetroWest and presented by:
